Philosophy

If a fellow tries to kiss a woman and gets away with it he's a man; if he tries and doesn't get away with it he's a brute; if he doesn't try and would have gotten away with it if he had tried he is a coward; but if he doesn't try and wouldn't have gotten away with it if he had tried, he's wise.

Calls for graduates have been coming in to all of the engineering departments in an increasing number. The metallurgical engineering department is especially outstanding. All of its alumni have been in positions for some time. Professor Dana Demorest, head of the department, reports that he has had more calls for graduates than he has been able to fill. Many other departments report an employment percentage that is well up in the nineties.
